

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve. I am a subscriber in the Boston area and it's vital that I be able to get my traffic & weather report given this is my main source during the morning commute. Take that away? How dare you?

Again, I respectfully urge you to reject 04-160.
